Portfolio

Career Objective

I am a Information Technology student looking for an entry-level Frontend Developer role where I can apply my knowledge of HTML, CSS, JavaScript, and Angular to build clean and user-friendly web applications while continuously improving my technical skills.

Education

Bachelor of Technology in Computer Science

Aug 2022 – Present

Parul University, Vadodara

CGPA: 6.87 / 10

Skills

Frontend: HTML, CSS, JavaScript, Angular, React.js

Backend: Node.js, Express.js

Database: MongoDB, MS Excel, Power BI

Tools: Git, GitHub, VS Code, Postman

Soft Skills: Communication, Teamwork, Problem Solving

Projects

Scrappy – Waste Exchange Web App

Aug 2024 – Dec 2024

Tech Stack: HTML, CSS, JavaScript

- Built a web application that allows users to exchange recyclable waste for reward credits.
- Designed and developed the frontend using HTML, CSS, and JavaScript.
- Focused on creating a simple and easy-to-use interface.
- Applied basic OOP concepts to organize the project structure.

Eventify – Event Service Booking Platform

Jan 2025 – Mar 2025

Tech Stack: Angular, Node.js, Express.js, MongoDB

- Developed a full-stack web application to compare and book event services.
- Created frontend using Angular with routing and forms.
- Built backend APIs using Node.js and Express.js.
- Used MongoDB to store user and booking details.

To-Do List Application

2024

Tech Stack: HTML, CSS, JavaScript

- Created a simple task management web app with add and delete features.
- Used JavaScript for DOM manipulation and event handling.
- Implemented local storage to save tasks.

ImagineAI – AI Image Generator

2025

Tech Stack: React.js, Node.js, MongoDB

- Built an AI-based web application that generates images based on user input.
- Developed frontend using React components.
- Connected backend APIs for handling image generation requests.
- Stored user prompts and generated images in MongoDB.

Certifications & Achievements

Certifications

Introduction to Internet of Things – NPTEL (IIT Kharagpur)	2025
Completed a 12-week course covering IoT concepts such as sensors, connected systems, and real-world applications.	
Power BI Workshop – OfficeMaster	2025
Learned to create interactive dashboards and analyze data using Power BI.	
AI Tools and ChatGPT Workshop – Be10x	2025
Explored practical uses of AI tools for coding, presentations, and productivity.	
Database and SQL – Infosys Springboard	2023
Gained understanding of database concepts and SQL queries.	
Vadodara Startup Festival Participation – Parul University	2024
Participated in a startup and innovation event and worked in a team environment.
